Years of Expertise

Introduction

Chromagen Hot Water Solutions

Chromagen is a pioneer in the production of hot water solutions since 1962, with vast experience and a solid presence in over 35 countries around the world, subsidiaries in Australia, Spain and Israel; and continuously expanding. Chromagen is positioned within the top 10 largest flat plate collectors manufacturers world-wide.

At Chromagen, we are proud of our high-quality hot water solutions and long-lasting products, using the highest raw material quality, complying with all international standards. Chromagen's projects department provides complete hot water solution that is tailor made applications for residential and commercial projects.

Hot water projects and solutions

Chromagen leads hot water projects world-wide, including multi-story apartment buildings and hundreds of hotels, hospitals, industrial plants, motor camps, sport clubs, spa and more. Chromagen's engineering department provides complete hot water heating solutions that are individually handled and planned. This department analyzes the project data, drafts preliminary design and ROI calculations, quotations, detailed engineering planning, installation, supervision and after-sale technical support.

Quality strategy

Chromagen meets the highest international standards and superb quality control. Our management scheme complies with ISO 9001 and IQNet standards. Chromagen systems and components conform with the European standards EN12975 for solar collectors & EN 12976 for solar thermal systems, International standards ISO 9806, Israeli standard, SRCC USA, Environmental standard ISO 14001, Health & Safety standard OHSaS 18001, Australian, European standards and more.

1 Flat-Plate Collectors

Introduction

Chromagen manufactures Flat-Plate Solar Collectors using state of the art technology.

- Full plate aluminum absorbers with an ultra selective sputtering or selective paint coating
- Anodized aluminum or galvanized steel casing
- Copper tubes, which are standard in all Chromagen collectors

Advantages

- Highest quality design
- Excellent heat transfer through the laser welded technology
- Tempered glass
- Advanced sputtering / selective-paint coating technology
- Long collector life span
- Wide variety of international certifications
- Installation on all types of roofs
- Clean energy generated, for free, from the sun

Chromagen Collectors Specifications

Collector Size	Y		K		D	
Risers diameter (mm)	8	16	8	16	8	16
Gross area (m ²)	1.41		1.65		2.02	
Aperture area (m ²)	1.25		1.52		1.85

Additional Specifications

Coating Absorption	Sputtering 95%; Selective Paint 90%
Coating Emission	Sputtering 5%; Selective Paint 45%
Glazing	Tempered glass 3.2 mm
Light Transmission	91%
Piping Connections	Four BSP female brass connection /clear cut edge
Thermal Insulation	23 mm polyurethane foam + glass wool (for highly selective coatings only)
Back Plate	Black polypropylene sheet
Aluminum Foil	Attached to the polyurethane foam

- Recommended flow rate: 20-50L/h per m²

Collector Efficiency Curve

$$X = (T_m - T_a) / G$$

$$T_m = \text{Water temp: } (T_{out} + T_{in}) / 2$$

$$T_a = \text{Ambient temp}$$

$$G = \text{Instantaneous solar radiation}$$

----- Sputtering

----- Selective paint

2 Tanks

Tanks

Introduction

Chromagen produces tanks designed to store hot water for residential and commercial use.

The inner enamel coating is applied by vacuum technology and produced with superior-quality enamel that fully coats the entire inner surface. The injected polyurethane foam insulates the tank from the ambient air.

Chromagen's produces horizontal and vertical water tanks with or without heat exchangers, that may be installed in thermosiphon or forced circulation systems. All tanks are available with an electric back up.

Advantages:

- Highest quality design
- Large variety of products for different requirements
- Highest quality glass-enamel coating
- Sacrificial anode for anti-corrosion protection
- Optimal insulation and heat retention
- Extreme product durability
- Long tank life span
- Wide variety of international certifications

Available in different frame materials and colors

3 Thermosiphon Systems

Thermosiphon Systems - Open Loop, High/ Low Profile

Thermosiphon Systems (TS)

TS rely on natural convection to move hot fluid from the collector to the tank without the use of electric-powered pumps. These systems are easy to maintain, less expensive to install and generally more efficient than Forced Circulation (FC) systems. The below systems include the following prefabricated kit: tank, collector/s and a connecting kit.

Open Loop, High Profile

In high profile installations the storage tank must be placed above the collector.

Open Loop, Low Profile

In low profile installations the bottom of the storage tank must be placed on or above the upper third part of the collector. The low profile configuration provides a more aesthetic installation.

Pro Thermosiphon System - Open Loop, High/ Low Profile

Users	Vol. (L)	Tank	Collector	Collector Area* (G / A)	Connecting Kit
x3-4	120	SH120NM	QR-K	1.65 / 1.52	IKITOL0010

4 Forced Circulation Systems

Forced Circulation Systems

Forced Circulation Systems (FC)

FC uses electrical pumps, valves and controllers to circulate water or other heat-transfer fluids through the collectors. FC enables high flexibility in the positioning of the systems' components: storage tanks do not need to be installed above or close to the collectors. The below systems include the following prefabricated kit: tank, collector/s, a connecting kit and an expansion tank.

Pro Forced Circulation Systems

Users	Vol. (L)	Tank	Spiral	Collector	Collector Area* (G/A)	Connecting Kit (inc. pump)	Exp. Tank

5 Electric Tanks

Electric Tanks

Introduction

Chromagen manufactures electric tanks designed to store hot water for residential use. The inner enamel coating is applied by vacuum technology and produced with superior quality. The polyurethane tanks insulations assure minimal heat losses.

Chromagen's produces residential vertical water tanks with or without heat exchangers. All tanks are available with an electric back up.

- Water storage tank made of cold rolled steel. The thermal tank is shaped in special patterns by robot welding process, thus achieving:
 - A) Perfect enamel application
 - B) Avoid the deformation of the internal tank as well as the enamel erosion in case of high pressure.
- Anti-corrosion internal layer of enamel powder baked at 860°C, according to DIN 4753 standard, for protection against electrolysis. The enameling is done in our high-tech industrial facilities. The water tanks are checked individually upon exit from the enameling unit, assuring the top quality of the enamel.
- Hot water outlet (consumption): stainless steel ½" BSP male threaded pipe end with plastic adapter.
- Cold water inlet (supply): special shaped ½" BSP male threaded divider, for even water stratum.
- 10 bar non-return valve for safe and controlled hydraulic pressure relief.

- Steel pressed neck for the heating element without welding, with internal incision for easy and quick heating element installation. no need for special tools (locknuts). Extraction and re-installation of the heating element in less than one minute.
- Full bodied gasket for sealing the heating element from the thermal tank, thus protecting the heating element flange from electrolysis and corrosion.
- Heating element rated according to the country of destination local regulations. It can be pulled away from the flange.
- Heat exchanger with 3/4" BSP male threaded pipe ends, made of steel pipe. Large exchange surface for use of the heating produced by central heating systems during the winter (optional).
- Cathode protection by magnesium anode 22x300 mm < 60 lt and 22x500 mm > 80 lt for effective internal protection against corrosion and mineral deposits caused by electrolytic reactions.
- Internal adjustable thermostat with bipolar protection and auxiliary fuse.
- Protective cover for the electrical section designed for easy access. It locks with just one screw. Ventilation holes specially designed for safe water vapor aspiration.
- Sealed entry of the heating element connection cable, with a rubber collar on the cable.
- Operation indication light.
- Thermal insulation: ecological high-density (40Kg/m³) expanded polyurethane ensures minimum heat loss, maintaining the hot water temperature.
- Insulation thermal conductivity: $\lambda=0.023$ W/m K (DIN 56612, measured at 10°C) (DIN EN ISO 845, DIN 53 421, ISO 4590, DIN ISO 2796).
- External housing with electrostatically robotized painted steel for protection against corrosion.
- Side plastic caps
- Thermometer
- Mounting: vertical, horizontal or floor.
- Packed in carton boxes for safe and easy storage - transportation.
- CE Marking: compliance with European health, safety & environmental protection legislation
- Energy Labeled (ERP): D C

6 Commercial Tanks

Commercial Tanks Introduction

Chromagen produces commercial tanks designed to store hot water for commercial use. The inner enamel coating is applied by vacuum technology and produced with superior quality. The tanks insulations assure minimal heat losses from the ambient air.

Chromagen's produces commercial vertical water tanks with or without heat exchangers that may be installed in forced circulation systems. All tanks may be available with an electric back up.

Commercial Tanks Specifications

Forced Circulation Tanks – No Heat Exchanger

Tank Size	1,000	1,500	2,000
Weight (Kg)	302	350	480
D&H	2,062x1,010	2,250x1,120	2,500x1,260

Forced Circulation Tanks – Single Heat Exchanger

Tank Size	1,000	1,500	2,000
Weight (Kg)	340	460	550
D&H	2,062x1,006	2,250x1,116	2,500x1,272

Forced Circulation Tanks – Double Heat Exchanger

Tank Size	1,000	1,500	2,000
Weight (Kg)	360	450	570
D&H	2,065x1,010	2,247x1,116	2,500x1,272

- Due to on-going development, specifications are subject to change without notice.
- The above represents the average dimensions and weights of produced products.
- 3000 L, 4000 L and 5000 L tanks are available.

7 Accessories

Connecting Kits

The systems are installed with the connecting kit elements and piping. The connecting kit is matched to the system chosen by the customer. A forced circulation system full connecting kit includes plumbing parts, pump, control and valves.

Catalog no.	Description
IKITOL0010	Connecting kit for O/L system - 1 collector + copper pipe
IKITOL0020	Connecting kit for O/L system - 2 collectors + copper pipe
IKITOL0014	Connecting Kit for O/L system 1 collector, no piping
IKITOL0024	Connecting Kit for O/L system 2 collectors, no piping
IKITCL0370	Connecting Kit for C/L 150/200 L TS system
IKITCL0380	Connecting Kit for C/L 300 L TS system
IKITCL0181	Connecting Kit for C/L 150/200L FC system for 1 collector
IKITCL0180	Connecting Kit for C/L 300L FC system for 2 collectors

Pumps

Pumps are used for different types of installations. Chromagen carries a different variety of pumps which are tested and approved for the use with solar thermal systems.

Catalog no.	Description
IPMPGRN021	Circulating pump UPS 25-20
IPMPGRN030	Circulating pump UPS 25-65
IPMPGRN031	Circulating pump UPS 25-6
IPMPGRN041	Circulating pump UPS 32-80
IPMPWI3010	Circulating pump 30/10

Thermostatic Controls

Different controllers are used for different types of installations, depending on the complexity of the system. Chromagen supplies solar systems, which includes thermostatic control. Chromagen tests and approves each thermostatic control unit.

Catalog no.	Description
ITMDIF0030	Differential Thermostat, DT 8393
ITMDIF0120	Differential Thermostat
ITMDIF0152	Differential Thermostat for individual Forced Circulation

Electric Elements

Chromagen tanks are supplied with an electric back up. An electric element inside the water tank is activated via thermostatic control.

Catalog no.	Description
PGUCBLF020	Electric heating element, 2500 W, 420 mm, Male
PGUCBLF080	Electric heating element, 2500 W, 94 cm
PGUCBLM020	Electric heating element, 2300 W, bent, 850 mm
PGUCBLM021	Electric heating element 2300 W, 850 mm
PGUCBLM030	Electric heating element, 2500 W, bent
PGUCBLM031	Electric heating element , 2500 W ,bent, 357 mm
PGUCBLM040	Electric heating element, 2300 W, bent
PGUCBLM041	Electric heating element 2300 W, 359 mm
PGUCBLM128	Electric heating element 2300 W, bent
PGUCBLY030	Electric heating element, 1500 W, straight
PGUCBLY040	Electric heating element, 2000 W, straight
PTRM035030	Thermostat, 35cm, 20A + Grounding
PTRM035060	Thermostat 35 cm
PTRM036030	Thermostat, 36 cm yellow, 95^
PTRM036031	Thermostat 150 L – 200 L – 300 L
PTRM036050	Thermostat 36 cm 105^
PTRM036052	Thermostat 36 cm
PTRM045010	Thermostat, 45 cm yellow
PTRM045011	Thermostat 45 cm
PTRM045020	Thermostat, 45 cm yellow

Valves

Catalog no.	Description
IBRZFF0010	Ball valve 1/2", female/female
IBRZMF0070	Ball valve 1/2", male/female
IBRZMF0080	Ball valve 3/4", male/female
IBRZMF0090	Ball valve 1", male/female
IBRZMF0100	Ball valve 1 1/4", male/female
IBRZMF0110	Ball valve 1 1/2", male/female
IBRZMF0130	Ball valve 1/2", male/female
IBRZMF0140	Ball valve 3/4" female/male
IBRZMF0150	Ball valve 1", male/female
IBRZMF0160	Ball valve 1 1/4", male/female
IBRZMF0175	Ball valve 2", male/female
IBRZMF0200	Ball valve 1/2", male/female
IBRZOT2522	Mixing valve 3/4"
ISHSAL0010	Check valve 1/2" x 3/4", male/female
ISHSAL0020	Check valve linear, 1/2"
ISHSAL0030	Check valve linear, 3/4"
ISHSAL0040	Check valve linear, 1"
ISHSAL0050	Check valve linear, 1 1/4"
ISHSAL0070	Check valve 2"
ISHSAL0080	Thermosiphon valve 3/4" plug - low profile
ISHSAL0081	Thermosiphon valve 3/4 plug white - low profile
ISHSAL0100	Thermosiphon valve 1/2" plug - low profile
ISHSBI0010	Pressure relief valve 3 Atm., 1/2"
ISHSBI0015	Pressure relief valve 3 Atm. to 160 deg
ISHSBI0021	Safety Relief valve 8 bar 312480
ISHSBI0050	Pressure relief valve 8 Atm., 1/2"
ISHSBI0051	Pressure valve 3 Atm.
ISHSBI0101	Temperature 90°C 10 bar relief valve 3/4"x22 mm
ISHSBI0110	Pressure Relief Valve 1"

Antifreeze Liquid

Catalog no.	Description
OCHEM00120	Propylene Glicol

Magnesium Anodes

Catalog no.	Description
IKITAN0315	Anode 315/33 mm + accessories
PANODA0250	Anode 250/33 mm
PANODA0315	Anode 315/33 mm
PANODA0350	Anode 350/33 mm
PANODA1000	Anode 1050/26 mm
PANODA1200	Anode 1220/26 mm

Pipe Fittings

Catalog no.	Description
IBSHBR0010	Bushing 1/2" x 3/4", brass
IBSHBR0060	Bushing 1/2" x 3/8", brass
IBSHBR0070	Bushing 3/4" x 1", brass
IBSHGV0010	Bushing 3/4" x 1/2", galvanized
IBSHGV0020	Bushing 1 x 1/2", galvanized
IBSHGV0030	Bushing 1 1/4 x 1/2", galvanized
IBSHGV0050	Bushing 2 x 1/2", galvanized
IBSHGV0060	Bushing 1 x 3/4", galvanized
IBSHGV0070	Bushing 1 1/4 x 3/4", galvanized
IBSHGV0080	Bushing 3/4 x 1 1/2", galvanized
IBSHGV0100	Bushing 1 x 1 1/4", galvanized
IMAAST0080	Bushing 3/4 male/female, 30 mm
IMAAST0095	Connector 3/4", 32 mm, hexagonal
IMAAST0120	Adaptor 1/2 x 3/4 32 mm, round
IMAHB00025	Connector 1/2" x 16 mm
IMAHB00027	Connector 3/4" x 16 mm
IMAHBP0010	Connector, brass 3/4"x16 mm, male, Linex
IMAHBP0070	Connector, brass 1/2"x 16 mm, female, Linex
IMSHAV0010	Air relief valve 1/2"
IMSHAV0030	Air relief valve 3/8"
IMUFG00080	Coupling 2 x 1 1/2" galvanized
IMUFGN0010	Coupling, galvanized 1/2"
IMUFGN0040	Coupling, galvanized 1 1/4"
IMUFGN0070	Coupling, galvanized 3/4"
IMUFGN0080	Steel coupling 3/4
IMUFGN0100	Coupling 2" galvanized
INIPBR0010	Nipple, brass 3/4", 3 cm
INIPBR0011	Nipple, brass 3/4", 4 cm

INIPBR0015	Double brass nipple "1
INIPBR0016	Double brass nipple "1 1/4
INIPBR0020	Nipple, brass, short 1/2"
INIPBR0030	Nipple, brass 1/2" to 3/4", short
INIPGV0020	Nipple 1/2" x 100 mm galvanized
INIPGV0041	Nipple 3/4" male/male, galvanized
INIPGV0051	Nipple 1" male/male, galvanized
INIPGV0060	Nipple, galvanized 1 1/4"
INIPGV0061	Nipple 1 1/4 x 8 cm
INIPGV0071	Double nipple 1 1/2 "
INIPGV0090	Nipple 3/4" x 300 mm Steel
INIPGV0133	Nipple, brass 3/4", double, painted, black
INIPGV0160	Nipple 1/2", galvanized, short
IRECBR0010	Brass union 3/4", for two collectors
IRECGV0010	Cone record 1"
IRECGV0020	Cone record 3/4"
IRECGV0040	Cone record 1 1/4" galvanized
IRECGV0060	Cone Record 2" galvanized
ITZLBR0020	Cross 3/4", brass
IZAVBR0020	Elbow 3/4", brass, male/male
IZAVBR0030	Elbow 3/4", brass, male/female
IZAVGN0020	Elbow 3/4", 90^, galvanized, male/male
IZAVGN0030	Elbow 1", galvanized
IZAVGN0040	Elbow 1 1/4" galvanized
IZAVGN0050	Elbow 1 1/2", galvanized
IZAVGS0030	Street elbow 1", male/female

Expansion Tanks

Catalog no.	Description
IXPTNK0008	Expansion tank 8 L
IXPTNK0012	Expansion tank 12 L
IXPTNK0018	Expansion tank 18 L
IXPTNK0024	Expansion tank 24/25 L
IXPTNK0050	Expansion tank 50 L
IXPTNK0105	Expansion tank 105 L

Stands

Collectors Angle	System Tank Volume	Collector	Stand CN
30° / 0°	150L (Diameter 585)	D/E	MAXFH1F30
30° / 0°	200L (Diameter 585)	F	MAXFH1F30
35° / 0°	300L (Diameter 690)	2 X D/E	MAXFH2E35

8 Solutions

Apartment Building Hot water Solutions

Combination of collector fields with individual water heating units for use in apartments, or a central heating system for water heating of an entire building.

Uganda | Apartment Complex

Guatemala | Apartment Complex

Panama | Apartment Complex

Chile | Apartment Complex

Hotels

Hot water Solutions

Integrating solar water heating solutions with existing heating systems for usage in hotels.

Greece | Hotel

Rwanda | Hotel

Tanzania | Hotel

Italy | Hotel

Industrial & Commercial Hot water Solutions

Solar water heating solutions to provide continues hot water and pre-heating water for industrial processes and commercial projects.

Trinidad | Dormitories

Uruguay | Oil Factory

Spain | Food Factory

Costa Rica | Hotel

Private Homes Hot water Solutions

Combination of solar sanitary water heating and radiant heating systems for all hot water needs in private homes.

Belize | Private Home

Tanzania | Private Home

Australia | Private Home

Kenya | Apartment Building

9 Miscellaneous

Container Load Options

Closed-Loop Systems – 20' Container*

Warranty

- [a] During the Warranty Period, Chromagen shall, at Chromagen's policy, repair, replace or give credit for any component that is returned to an authorized service center and that is found by Chromagen to contain defects in material or workmanship and returned by distributor to Chromagen; and the extent of Chromagen liability shall not exceed the cost of repairing or replacing the defective item during the warranty period.
- [b] This Warranty does not cover defects or damages resulting from accident, inappropriate physical or operational environment, failure of electrical power, freezing, corrosion, scaling due to hard water, improper installation, maintenance, service, repair, transportation, storage, modification, operation, use, negligence or fault by any party other than Chromagen.
- [c] This Warranty shall run solely to and in favor of the distributor; and the distributor shall be responsible to its customers for all warranties that it makes.
- [d] This Warranty is the sole warranty given by Chromagen in respect of the products.
- [e] In no event shall Chromagen be liable for special, incidental, or consequential damages, or for damages arising out of the inability to utilize products for any purpose whatsoever.
- [f] For warranty period information, please contact Chromagen's distributor in your area, according to Chromagen International warranty.
